***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to process for the detection *in vitro* of the presence of a pathology in a subject.

Group II, claim(s) 13-17, drawn to process of preparation of a nucleic acid library characteristic of a pathological state.

Group III, claim(s) 18-19, drawn to a nucleic acid preparation; and claim 20, drawn to a related kit.

Group IV, claim(s) 21, drawn to a protein-based process for detection *in vitro* of the presence of a neurodegenerative disorder or of a cancer in a subject.

4. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The inventions of Groups I-III are linked through nucleic acids that are associated with a “pathological condition” while the invention of Group IV does not require any nucleic acid. Accordingly, the inventions are not so linked by a corresponding special technical feature such that they have unity of invention as set forth under PCT Rule 13.2.

5. A telephone call was made to Kristina Bieker-Brady, Ph.D., Reg. No. 39,109, on 22 July 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bradley L. Sisson whose telephone number is 703-308-3978. The examiner can normally be reached on Monday through Thursday from 6:30 AM to 5 PM.
